

Alcohol-based hand rub for hygienic and surgical hand disinfection, without colour and perfume

## desderman® pure

### Our Plus

- all-season product: protects safely against infections all year round!
- broad spectrum of efficacy (incl. viruses according EN 14476)
- excellent skin compatibility due to an established system of refatting agents

### Application areas

- **hygienic hand disinfection (EN 137272 + EN 1500):**  
Rub a sufficient amount into dry hands, contact time 30 sec.
- **surgical hand disinfection (EN 13727 + EN 12791):**  
Rub a sufficient amount into dry hands and forearms, contact time 90 sec.

### Instructions for use

The product is to be used undiluted. During the contact time for hygienic and surgical hand disinfection, the product should be applied in portions so that the hands or hands and forearms remain well moistened during the entire application time.

### Microbiological efficacy

| Efficacy                                   | Concentration | Contact time |
